

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended) A nonwoven anti-microbial wipe comprising ~~a readily releasable anti-microbial agent wherein~~ a fibrous nonwoven substrate ~~is treated~~ impregnated with an anionic binder and ~~an~~ a readily releasable anionic anti-microbial agent, wherein said anionic anti-microbial agent ~~that~~ is readily released upon said wipe being introduced ~~to~~ into a water source to form an anionic disinfectant solution, wherein said anionic anti-microbial agent is selected from the group consisting of dual quaternary ammonia anti-microbial agent, ~~potassium iodide~~, and sodium hypochloride.

Claim 2 (previously presented) A nonwoven anti-microbial wipe as in claim 1, wherein said fibrous nonwoven substrate is hydroentangled.

Claim 3 (canceled)

Claim 4 (currently amended) A nonwoven anti-microbial wipe comprising ~~a readily releasable anti-microbial agent wherein~~ a fibrous nonwoven substrate is coated with a non-ionic and anionic binder mixture and subsequently coated with ~~an~~ a readily releasable anionic anti-microbial agent, wherein said anionic anti-microbial agent ~~that~~ is readily released upon said wipe being introduced ~~to~~ into a water source to form an anionic disinfectant solution, wherein said anionic anti-microbial agent is selected from the group consisting of dual quaternary ammonia anti-microbial agent, ~~potassium iodide~~, and sodium hypochloride.

Claim 5 (previously presented) A nonwoven anti-microbial wipe as in claim 4, wherein said wipe is a laminate.

Claim 6 (previously presented) A nonwoven anti-microbial wipe as in claim 1, wherein said anti-microbial wipe is a hard surface wipe.

Claim 7 (canceled)

Claim 8 (canceled)

Claim 9 (previously presented) A nonwoven anti-microbial wipe as in claim 1, wherein said anionic anti-microbial agent is sodium hypochloride.

Claim 10 (previously presented) A nonwoven anti-microbial wipe as in claim 1, where said fibrous nonwoven substrate comprises staple length fibers consolidated into a nonwoven web.

Claim 11 (previously presented) A nonwoven anti-microbial wipe as in claim 1, where said fibrous nonwoven substrate comprises continuous filaments consolidated into a nonwoven web.

Claim 12 (currently amended) A nonwoven anti-microbial wipe as in claim 4, wherein said anionic anti-microbial agent is a dual quaternary ammonia anti-microbial agent.

Claim 13 (canceled)

Claim 14 (previously presented) A nonwoven anti-microbial wipe as in claim 4, wherein said anionic anti-microbial agent is sodium hypochloride.

Claim 15 (previously presented) A nonwoven anti-microbial wipe as in claim 4, where said fibrous nonwoven substrate comprises staple length fibers consolidated into a nonwoven web.

Claim 16 (previously presented) A nonwoven anti-microbial wipe as in claim 4, where said fibrous nonwoven substrate comprises continuous filaments consolidated into a nonwoven web.

Claim 17 (new) A nonwoven anti-microbial wipe comprising a fibrous nonwoven substrate impregnated with an anionic binder and a readily releasable anionic anti-microbial agent comprising dual quaternary ammonia anti-microbial agent, wherein said anionic anti-microbial agent is readily released upon said wipe being introduced to a water source to form an anionic disinfectant solution.

Claim 18 (new) A nonwoven anti-microbial wipe as in claim 17, where said fibrous nonwoven substrate comprises staple length fibers consolidated into a nonwoven web.

Claim 19 (new) A nonwoven anti-microbial wipe as in claim 17, where said fibrous nonwoven substrate comprises continuous filaments consolidated into a nonwoven web.

Claim 20 (new) A nonwoven anti-microbial wipe as in claim 17, wherein said wipe is a laminate.

Claim 21 (new) A nonwoven anti-microbial wipe as in claim 17, wherein said wipe further comprises a scrim reducing extensibility of said fibrous nonwoven substrate.

Claim 22 (new) A nonwoven anti-microbial wipe as in claim 17, wherein said fibrous nonwoven substrate is hydroentangled.

Claim 23 (new) A nonwoven anti-microbial wipe as in claim 17, wherein said fibrous nonwoven substrate is selected from the group consisting of hydroentangled, airlaid and spunbond.

Claim 24 (new) A nonwoven anti-microbial wipe as in claim 17, wherein said readily releasable anionic anti-microbial agent consisting of said dual quaternary ammonia anti-microbial agent.
